## ABOUT ME

Frontend engineer, my passion lies in transforming design concepts into seamless, user-friendly experiences. With a keen eye for detail and a commitment to staying current with the latest web technologies, I'm dedicated to creating visually stunning and highly responsive web applications that engage and delight users.

---

## EXPERIENCE

### Union Systems Ltd

Entry level | Frontend Engineer

Lagos , Nigeria

2023-06-01 | Currently working here

- I leverage Figma designs to create intuitive and visually appealing user interfaces for web applications, prioritizing user-friendliness.
- Ensuring a seamless user experience, I stay abreast of the latest design trends and incorporate cutting-edge software and tools into the application's interface.
- I specialize in integrating REST APIs, collaborating closely with back-end developers to seamlessly fuse front-end and back-end functionalities.
- By researching and adopting the newest software and tools, I keep our web applications technologically advanced and aligned with industry best practices.
- Collaborating effectively with back-end developers, I bridge the gap between design and functionality, ensuring a cohesive and responsive web application.
- Through continuous research, I stay informed about emerging technologies, enriching our development process and enhancing the overall user experience.
